Raptor

Old Faithful in Underground Mine Dewatering

Developed in consultation with the Australia Mining Industry and wholly manufactured by PumpEng for the Underground Mining Industry. Proudly Australian Made.

Parts interchangeable with traditional OEM BIBO ranges. The Raptor® is available 1000V and 415V in 50Hz and 480V and 600V in 60Hz.

Benefits of Raptor® for Mining Operations

Performance

Increase mine performance, productivity and profit by reducing breakdowns and delays.

Safety

Reduce workplace hazards by reducing the number of breakdowns.

Cost

Reduce equipment lifecycle cost by increasing total pump life.

About Us

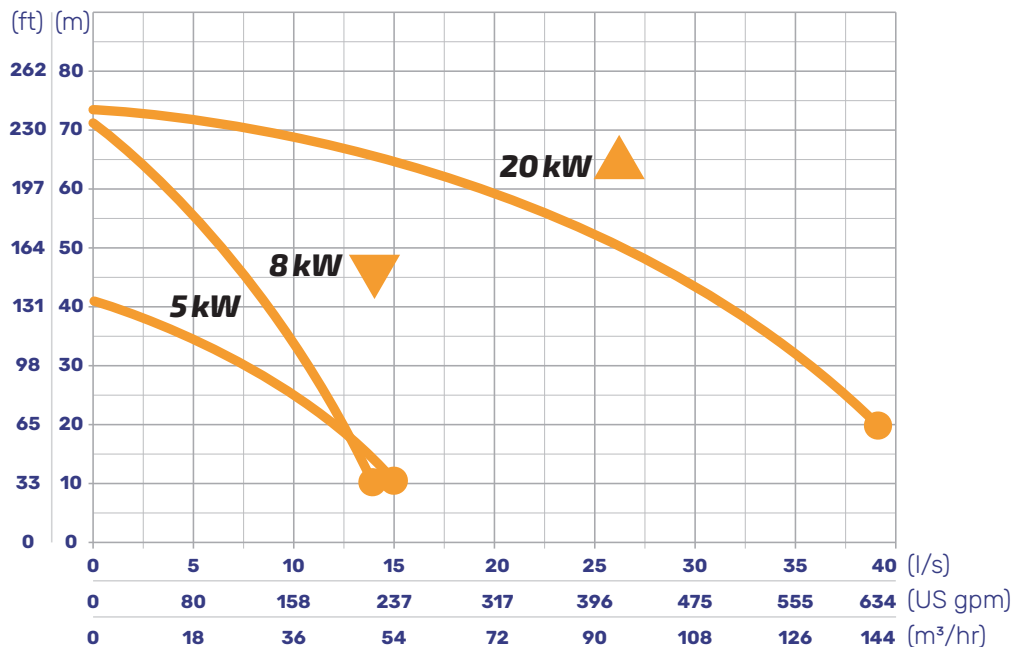

PumpEng is on a mission to redefine underground mine dewatering, prioritising excellence at every turn. Our commitment to innovation, reliability, availability, and personalised support throughout the product lifecycle ensures every mine operator a good day at work.

PumpEng is an Australian-based global Original Equipment Manufacturer (OEM) with a rich history of supplying submersible pumps to the mining sector. Renowned for excellence and innovative pumping solutions, we are a trusted global mining partner. Our core competencies include submersible pump design, manufacture, assembly and application guidance. A commitment to eco-friendly solutions reflects environmental responsibility.

Our client-centric approach fosters enduring partnerships worldwide, providing exceptional service and support. PumpEng upholds the highest standards and meets international regulations.
