

PumpEng

Tough Submersible Pumps

Capability Statement

About Us

PumpEng is on a mission to redefine underground mine dewatering, prioritising excellence at every turn. Our commitment to innovation, reliability, availability, and personalised support throughout the product lifecycle ensures every mine operator a good day at work.

PumpEng is an Australian-based global Original Equipment Manufacturer (OEM) with a rich history of supplying submersible pumps to the mining sector. Renowned for excellence and innovative pumping solutions, we are a trusted global mining partner. Our core competencies include submersible pump design, manufacture, assembly and application guidance. A commitment to eco-friendly solutions reflects environmental responsibility.

Our client-centric approach fosters enduring partnerships worldwide, providing exceptional service and support. PumpEng upholds the highest standards and meets international regulations. PumpEng stands as a beacon of global OEM manufacturing, epitomising reliability, innovation, and customer-centricity for the mining sector. We're available, supportive, innovative and consultative.

Our Core Competencies

Tailored Solutions for Mining

Recognising the unique requirements of miners worldwide, we specialise in designing innovative submersible pumps for the most difficult environments. Our collaborative approach involves working closely with clients across continents to design dewatering equipment solutions to withstand the pressures of diverse operational environments.

Your Trusted OEM Partner

At the heart of PumpEng lies our expertise in global OEM manufacturing. We are a strategic partner with a worldwide reach. Our extensive manufacturing capabilities ensure clients receive high-quality, tailored pumping equipment wherever they operate.

Delivering Global Quality Standard

Quality Assurance on a Global Scale: Our commitment to quality knows no borders. Rigorous quality control measures, from design to production, support our pumps' durability, reliability, and longevity. We adhere to international industry standards, ensuring our products meet or exceed clients' expectations.

We have assembled a highly skilled technical team to support delivering this quality work.

Empowering Application Awareness

Our pumps incorporate the latest advancements, contributing to energy efficiency, reduced maintenance costs, and overall operational excellence for clients worldwide. To reap these benefits, we work with our partners to create a system that supports using the right pump for the job. We also empower on-site service teams with an easy-to-follow pump identification system and simple online access to key installation information.

Comprehensive Global Product Range

Our diverse product portfolio covers mining, construction and mineral processing applications. PumpEng offers a comprehensive suite of dewatering pumps designed to handle requirements in various challenging environments.

Global Environmental Responsibility

We recognise the importance of sustainability on a global level. PumpEng is committed to developing eco-friendly pump solutions that minimise energy consumption and environmental impact. Our efforts align with our dedication to responsible manufacturing practices.

Certifications and Compliance

PumpEng upholds the highest standards of safety, quality, and compliance. Our pumps meet international industry regulations, and we hold certifications that underscore our dedication to excellence. Clients can trust our commitment to delivering products that adhere to the strictest quality and safety standards.

PumpEng stands tall as a beacon of global OEM manufacturing excellence, embodying reliability, innovation, and customer-centricity in the pump manufacturing industry. With a legacy built on trust and performance worldwide, we remain dedicated to pushing the boundaries of what is possible in fluid handling solutions.

Submersible Pump Range

Design • Manufacture • Sales

JetGuard®

The Toughest Submersible Pump
from PumpEng

JetGuard® has an **all-metal** wet end with a high chrome impeller which makes it particularly suitable for harsh environments with Shotcrete poly fibre in the wastewater. The hydraulic water curtain guards against fibre entering the pump. JetGuard is suitable for underground mining, surface mining and general dewatering applications. Available in 10kW (14Hp) and 20kW (27Hp) for purchase or hire on our maintenance inclusive program*

Guardian

The All Metal Submersible Pump
from PumpEng

No more pumps with rubber and polyurethane components! The Guardian is an upgrade to the Raptor range (Flygt® BIBO compatible). It incorporates an **all-metal** wet end together with the high chrome impeller which extends pump life and reduces repair costs.

The Guardian is available in 8kW (11Hp) and 20kW (27Hp) for purchase or hire on our maintenance inclusive program*

* subject to Fair Wear & Tear policy

PumpEng

Raptor

Wholly manufactured by PumpEng, the Raptor® is designed for mining, construction, and general applications. It offers compatibility with OEM BIBO ranges through interchangeable parts and is available in 5kW (7hp), 8kW (11hp), and 20kW (27hp) models for purchase or hire, providing flexible power solutions.

PumpEng

ScatPump

Extremely durable, top-discharge slurry submersible pump with a mechanical agitator and wide clearances. Flows available up to 6 m³/min and heads up to 32 m. A solid workhorse in any condition.

ScatPump® is available in Models: 1.5 to 2.2 kW (Mini) and 4 to 22 kW.

PumpEng

MetalVest

The all-metal design of MetalVest™, together with the impeller constructed of Hrc provide a longer wear life which extends the life of this high head dewatering pump and reduces repair costs.

The MetalVest™ are available in 37 kW - 75 kW in 415V, 480V, 600V and 1,000V (50 or 60 Hz).

PumpEng

CanaryPump

A lightweight, user-friendly and easy to maintain pump management solution for underground pumping. With its bright yellow colour and weight of less than 25kg, it is easy for a single person to handle. A key feature is its replaceability, which ensures quick maintenance and minimal downtime. CanaryPump is a gamechanger making pumping effortless and efficient.

Full Service Provider

PumpEng® offers a full range of services for submersible pumps including:
